

CYBER CLAIMS PROCESS

What to expect when you submit a Cyber insurance claim

If your business suffers a Cyber incident, and you've never had to file a Cyber insurance claim before, you might be wondering exactly how it all works. We will collaborate with you to handle, investigate, and resolve your claim promptly and fairly.

Cyber Claims Process Step by Step

01

Call Northbridge Insurance Claims 1-855-621-6262

Time is critical if a Cyber incident occurs. Our Claims team should be contacted first.

02

Potential Impacts Assessment

Together with our technical partner, GoSecure, we ask you questions to figure out what happened, and what is to be expected given the type of Cyber incident.

03

Northbridge Policy Review

The Claims adjuster reviews the event summary, recommendations, and confirms the coverage under your insurance policy.

04

Claims Adjustment

The Claims adjuster works with you and any required service providers to create and implement an action plan. This may include forensics, ransom negotiation, data mining, public relations, remediation, and regulatory reporting.

Was personal data compromised?

- NO** We will help your business in responding to the Cyber incident. Even if personal data was not compromised, your operations can be affected and your reputation, systems and networks might be altered. We will direct you to our preferred vendors to resolve this matter.
- YES** We can help you connect with a **breach coach** (legal counsel). They will determine the nature of the incident and legal implications. They will also assess if reporting to regulatory bodies is required and help determine the scope of services needed to respond to the breach.

Our pre-approved vendors

Breach Coach

We work with reputed law firms including Norton Rose Fulbright LLP.

Public Relations

- Fleishman Hillard Public Affairs
- National
